SKILLS

Programming Languages: Java | C++ | C | JavaScript
Frontend Technologies: HTML5 | CSS3 | Bootstrap
Backend Technologies: Node.js | Express.js | RESTful APIs | Google Cloud
Databases: MongoDB | SQL
DevOps & Development Tools: Docker | Git GitHub | Postman | Figma | Gemini
Languages: English | Hindi | Marathi | German (A1)

EXPERIENCE

software developer
Jun 2024
Infeanet digital solution and web media, Pune

- Developed and deployed software modules that satisfied business requirements and project timelines.
- Collaborated with development teams using Git-based version control.
- Participated in debugging, testing, and software maintenance activities.

PROJECTS

SentinelSec - Security Telemetry & Data
Website: link GitHub: link
Automated vulnerability assessment & real-time threat telemetry dashboard.

- Created an automated security compliance scanner checking for OWASP Top 10 misconfigurations, dependency CVEs, header vulnerabilities, and SSL expiry with interactive visual telemetry.

CloudVault - Web Security & Cloud
Website: link GitHub: link

- end-to-end encrypted storage architecture where user files are encrypted client-side using AES-256-GCM before uploading to cloud buckets, ensuring zero plaintext exposure to the host server.

Wanderlust — Full-stack Travel Website
Website: link GitHub: link

- Developed a full-stack travel listing platform inspired by Airbnb. Implemented complete CRUD functionality using RESTful architecture.
- Built scalable backend architecture using Express.js and Node.js.
- Integrated MongoDB with Mongoose for efficient data management.

CERTIFICATIONS

- Preparing for Google Cloud Certification: Cloud Developer: link
- IBM Full Stack Software Developer: link
